

# ATTENTION ALL GARDENERS !

## WOODCHIP

As it says, wood chipped up. Long lasting, ideal for pathways, fruit pens and as a mulch. Good at keeping weeds down.

## WOODCHIP MULCH

Good for surpressing weeds in your garden. Often used around flower beds.

## WOODCHIP MULCH WITH HORSE MANURE

A good well rotted, fertile mulch.

## CHICKEN MANURE

Very rich in nitrogen phosphate and potash. Good for activating compost heaps. Can be used carefully for feeding plants and crops.

## MUSHROOM COMPOST

Sterile, weed free. Very good at breaking down heavy soils, a good mulch, our best seller.

## FARM YARD MANURE

Ideal for digging into your veg garden. Rich in nitrogen, phosphate and potash, will ensure a bumper crop.

## HORSE MANURE

Good for digging in and around your flower beds. Not quite as high in nitrogen, phosphate and potash as the farm yard manure. Well rotted, no straw or shavings.

## TOP SOIL

Ideal for filling up your raised beds or replenishing tired gardens. It is fertile and has been screened.

## COMPOST

A mix of our rotted manures. It is dark and fertile, can be used in many ways.

Nick Stevens has been providing gardeners with manure, compost and mulches for 30 years. A lot of time is spent rotting down manure so it is ready to use on your garden right away. It is not unusual to find the maure full of worms when bagging up, not something you will find from a garden centre. All our manure is delivered to your garden by truck or trailer and wheelbarrowed to where you need it. Your delivery can be 1 bag 1 ton or 10 tonnes and anything in between. A truck load can be anything up to 50 bags. You can mix your order up with any of our products. We can also tip a bulk load to save on bagging costs. Nick is always available to chat about which products would suit your situation.
